FASTEST HEATS OF THE YEAR

At Wind Up of Grand Circuit at Kalamazoo-The Eel Won Two Minute Pace by a Nose Time 2.02 3-4-Tigers Win from Athletics-Pittsburg Takes 14-Inning Battle

Kalamazoo, Mich., Aug. 6.—The grand circuit meeting wound up here today with great racing and the fastest heats of the year. The two minute pace brought out four starters and was the first clash of The Eel with the free for all brigade. The Canadian horse was favorite and justified the opinion in which he was held. The first heat saw Hedgewood Boy tail The Eel all the way. In the stretch Hedgewood Boy got as far as The Eel's flank, but hung there until he broke, The Eel winning under a drive in 2.55. Hedgewood Boy broke on the last turn in the second round and Citation and Alleen Wilson took up the chase. It was a spectacular finish and The Eel won by a nose from Citation, while she beat Alleen Wilson as much. The time—2.92 34—is the season's record and within a quarter second of Joe Patchen's stallion record for two heats.

The 2.10 trot also proved a hard race and the veteran Country Jay just liasted long enough to get the decision. This 13 year old gelding won the first heat by a neck, the second a little easier and in the third, after racing the last sixteenth head and head with Carrol, was given the heat. It was the closest finish of the week and the showing of Country Jay was all the more wonderful because of his pronounced lameness.

The other races were easily won. From here the horses go in three discussed hears and the process of the received was forced to his new racer Benz. Christie won easily, time, 2.45.

Heavy Track at Saratoga. Heavy Track at Saratoga.

Saratoga, N. Y., Aug. 6.—The races at Saratoga today were run over a very heavy track and only mud runners of the most pronounced type were in demand. Pins and Needles, backed down from 6 to 1 to 4 to 1, won the handicap at one mile and her victory was somewhat of a surprise. Sir John Johnson was a 9 to 20 favorite and he made the pace well into the stretch, when he tired suddenly, and Pins and Needles coming strong on the outside won, going away by on the outside won, going away by 2 1-2 lengths.

New Track Record at Windson. Detroit. Mich., Aug. 6.—The fast track continues to bring out new track records at Windsor. Penn in the handicap for two years olds made the five and a half furlongs today in 1.06 1-5, against the long standing mark of 1.06 1-4. In the mile and a quarter event for three year olds Howard Shean galloped the distance in 2.06 1-5, clipping four-fifths of the old mark and winning by three learning for the first stand winning the three learning for the first stand winning the stand and winning by three lengths from King of the Mist.

Rebuying of Stocks by Professional

Element Causes Rise in Prices.

New York, Aug. 6.—The rise in prices today had the appearance of a fighting in the market from the dip at

yesterday's close. There was, in fact, a considerable rebuying of stocks sold short by the professional element yes-

terday on the assumption that the en-actment of the tariff law would be fol-lowed by a movement to realize profits on the part of large holders of stocks

on the part of large holders of stocks who have been accumulating them through a period of many months. Na such realizing movement developed today and the uncovered bears were prompted to cover their short contracts. After the spasmodic demand from vesterday's short sellers the

from yesterday's short sellers the trading became intensely dull, but was actively renewed in the closing dealings, when the tone was very active. A very favorable report on the condition of the grain crops by the agricultural department is looked for on Monday, and this is relied to bring in some demand for stocks which will afford a basis for selling. The strength of the corn grangeirs today indicated that the special hopes of a good showing for the corn condition. Spring wheat is also counted on to take a promising exhibit. This had something to do with the conspicuous place held by St. Paul in the transactions today. The price rose above 161 for the first time-since the rights to subscribe to new stock on

in the transactions today. The price rose above 161 for the first time-since the rights to subscribe to new stock on profitable terms was accorded to the stockholders in 1906. There was also discussion of the profitable possibilities for the traffic on the Pacific coast extension of the system, for which large growth is predicted. Not much attention was paid to the forecasts of the currency movement in view of the continued ease of the call money market. The operations with the sub-treasury this week have absorbed \$6,132,000 from the banks, and this officially reported movement is much more reliable than the usual estimates of the express movement with the interior. Last week, for instance, the bank statement showed little trace of the estimated gain of \$6,000,000. This week's estimate points to a curtailment of the loss to the sub-treasury by about \$4,0000. United States Steel's rise to 76 3-4 and Union Pacific to 203 made new record prices for those stocks and helped materially to the strong closing tone. Bonds were firm. Total sales, par value \$5,272,000. United States

son for it was apparent the moment Judge Marsden of Madison made his motion to amend the majority bill by striking out all lafter the enacing clause and substituting the minority bill. He said he did this to bring the minority bill before the house, which was exactly what he did do it for, that and to force the supporters of the minority measure to defend it. With the question on the minority bill, their speeches raking the Barnum oill, of which Chandler's had been most carefully prepared and he had furnished the ully prepared and he had furnished th afternoon papers with ample copies, were little better than useless, though they did find it possible to work in some of them. It was really very funny to read in that afternoon's Times the speech Chandler didn't make.

So first blood was with the backers

So first blood was with the backers of the Barnum bill. Also every man in the state of Connecticut who ever pretended to do anything at lobby work and is not ill or away on a va-cation was in the lobby all day—when work and is not ill or away on a vacation was in the lobby all day—when he wasn't on the floor of the house.

The "C. D. Q." signal had gone out.
The "C. D. Q." signal had go iness on hand and little time to do it in and interruptions were offensive.

In the forenoon everybody believed the minority bill was going to win, although it was apparent to those on the inside that a lot of hard work for the Barnum bill had been done. In the afternoon there was a little different look on the face of affairs, but Burnes

When the vote came the counties with the city members went for the minority bill, Hartford county 2 to 1, and the minority people began to brighten up. New London county gave as small plurality the other way. Midserfide hits, Evan, Murphyand Konetchy; Byrne, Deleparsed ball, Phelps; siden wild pitch, More; bases on More 2; struck out, by Lunding 2; bits, off More 2; in 1. three or four votes to beat the minority bill. It is beaten, however, and will be beaten worse on Tuesday when recon-

sideration is moved.

That may not mean, however, that the Barnum bill will pass, and in that lies the real interest of the situation. There were a number of votes cast against the minority bill yesterday that will not be east for the Barnum bill. That is where the sub-committee bill, which can be moved as an amendto pass the house, but the senate will hardly recede from its position to amend that bill. The vote on the matter in that body wouldn't be as close again as it was last Tuesday.

The Sunday bill as it passed the senate was a characteristic action and product of that very remarkable legislative body. Nebody knows what the bill really means. It is a marvel of uncertainty for its size. But it is the readiness and anxiety of the senate to shift the responsibility to the towns that calls for comment. When it comes to such matters as charters and choosing local judges and others decidedly important to a community this same senate curtly refuses to permit them any freedom of action. DR. King's Restoration Method

What It Does for Toothless People

THOMAS JEFFERSON KING. D. D. S.,

Originator of Dr. King's Restor-ation Method for the natural restoration of teeth—originator of the King Safe System of Painless Dentistry and Inventor of the "Natural Gum" Set of

By means of this wonderful method we are able to give back to a patient the full set of teeth he or she started in with in the beginning. All we require is two or more teeth in each jaw to work from, and we shall not resort to plates or ordinary bridgework in the process of the work. Your mouth will be free from in-

Before we accomplish this result we put the gums and the natural teeth in a healthy condition, tightening the teeth which may be loose and curing pyorrhea if the patient is afflicted with that dreadful dis-

ase.

All of the teeth we supply are practical teeth; each set in its own socket following nature's plan so that the strain is equally divided. One is able to bite on these teeth and use them in exactly the same manner as he would his natural teeth. They maich nature's teeth so closely as to deceive experts. They are heautiful to look at and a source are beautiful to look at and a source of constant delight to the one wi

A PAINLESS PROCESS

An impression has gone forth that there is some surgical operation connected with this method of restoring missing teeth. Some people have written in to know if we bore down into the bone and put the

teeth in on pegs! Others have an idea we set the new teeth into the sockets where the natural teeth were originally.

It is quite natural that some unthinking people would ask such questions, and in order that they may be fully answered we will state that there is no boring, no cutting, no implantation about this method, nothing about the work that is painful while it is being done or afterward. Patients leave the office with these teeth in place and at once begin chewing meat, eating candy, toast, or anything else with the same com-

fort they would enjoy if every tooth in their head had grown there. If we couldn't promise this and make good on the promise, the Restoration Method would not be a success. It would be no better than ordinary bridgework or partial plates.
